Sensico

by Gebr. Otto

Sensico is a blend of **finest, high-quality cotton** with the intelligent cellulose fibre **SMARTCEL**. The perfect combination of the best raw materials, high-tech spinning and environmentally friendly dyeing results in a functional yarn with a wide range of applications.

The medically approved zinc oxide integrated into the SMARTCEL fibre wash-resistant **protects the skin from UV radiation** and has an **anti-inflammatory** effect. Besides the positive benefits for the skin, zinc oxide has **antibacterial** and **odor-reducing** properties.

The fluffy, silky yarn quality guarantees a **pleasant wearing comfort** and **high durability** at the same time.

Sensico consists of **renewable raw materials** which are environmentally friendly and **biodegradable**.
